

July 1, 2008

To whom it may concern:

On behalf of the National DCP, I am happy to recommend American Office & Business Equipment for your consideration.

Our affiliation with American Office started when we were in our Franklin, Mass. location more than five years ago and has continued at our newest facility in Bellingham, MA. When the Center was completed in December, 2005, Dave Zabka and the American Office team assisted us by outfitting and installing additional items as needed – case good furniture, white boards & file cabinets.

The National DCP now employs approximately 450 people, up from about 350 since our move. Each period of growth has required new offices & meeting spaces and American Office has been able to assist us with all of our growing requirements. Dave and his team have provided all sales, customer service & installation of items for both public & private spaces. A wide range of styles and costs are presented for consideration, along with cost options. On occasion we will have special requests for very specific items. These challenges are met without hesitation.

For all of the reasons stated above, it is a pleasure to recommend American Office & Business Equipment to you. Should you need further commentary, please call me at the number below.

Sincerely,

Janice Murray
Administrative Services Supervisor
